**AIR-COOLED AIR CONDITIONERS AND AIR-TO-AIR HEAT PUMPS — TESTING AND  
CALCULATING METHODS FOR SEASONAL PERFORMANCE FACTORS —**

**PART: 1 COOLING SEASONAL PERFORMANCE FACTOR**

**0. FOREWORD**

- 0.1 This Pakistan Standard was adopted by the authority of the Board of Directors for Pakistan Standards and Quality Control Authority after approval by the Technical Committee for “Air-cooled air conditioners and air-to-air heat pumps — Testing and calculating methods for seasonal performance factors —Part: 1 cooling seasonal performance factor,” had been approved and endorsed by the Electrotechnical National Standards \_\_\_\_\_.
- 0.2 This Pakistan Standard was adopted on the basis of ISO: 16358-1 since IEC Standard have been established in 2013, hence it is deemed necessary to adopt the International standard to keep abreast with the latest technology and as par with ISO standard.
- 0.3 This Pakistan Standard is an adoption of ISO: 16358-1 “Air-cooled air conditioners and air-to-air heat pumps — Testing and calculating methods for seasonal performance factors —Part: 1 Cooling seasonal performance factor,” and its use hereby acknowledged with thanks.
- 0.4 This standard is subject to periodical review in order to keep pace with the development in industry. Any suggestions for improvement shall be recorded and placed before the revising committee in due course.
- 0.5 This standard is intended chiefly to cover the technical provisions relating to this standard and it does not include all the necessary provisions of a Contract.
